

A Series High Range Stand-on Pallet Stacker / Li-Ion

LI-ION
TECHNOLOGY

INNOVATIVE LITHIUM-ION

The World of Hangcha
SINCE 1956

HANGCHA

CDD16-AC1S-I

Features:

- / The truck is developed based on the A series Hi Range stand-on pallet stacker, and inherits all merits of A series pallet stacker.
- / Li-Ion technology are applied, with safety protector which can ensure safety of lithium ion battery during operation.
- / Quick charging technology is applied, which not only can charge the battery to full capacity within 2-2.5 hours, but also is safer and more reliable, avoiding the truck from paralysis because of self-power consumption.
- / The battery features long service life, and can have up to 3000 charge-discharge cycles.
- / High protection grade (IP54) can guarantee reliability of the battery.
- / In comparison with lead-acid battery, lithium ion battery features smaller voltage fluctuation during entire cycle of discharging, as well as higher power utilization efficiency.
- / Except the battery, commonality with lead-acid battery trucks of same model from Hangcha can reach above 95%.
- / The battery is maintenance-free, no potential pollution of heavy metal, and is environmentally friendly.
- / Lithium ion battery can be charged and used at any time.

Specification:

Model		CDD16-AC1S-I
Type of operation		Standing
Rated load capacity	kg	1600
Load center distance	mm	600
Minimum turning radius	mm	1662
Maximum travel speed	km/h	7.0
Maximum lifting speed	mm/s	118
Gradeability, laden	%	5
Power of drive motor	kW	2.2
Power of lift motor	kW	3.0
Standard battery	V/Ah	24/150
